Abstract: A check-list of the genus *Colchicum* L. in the Flora Turkey is presented, with 36 taxa. A list of taxonomical changes that have occurred since the publication of the Flora of Turkey suppl. II is given. Twenty-seven of them are autumn-flowering species (28 taxa), whereas 8 of them are early-spring species. Thirty-five species (36 taxa) are presented, of which 15 are endemic to Turkey.

Key Words: *Colchicum*, Check-list, Liliaceae, Turkey

Turk. J. Bot., **29**, (2005), 327-331.
