## Erythrocyte Sizes of Some Anurans From Turkey

Mehmet K. ATATÜR, Hüseyin ARIKAN, İ. Ethem ÇEVİK  
Biology Department, Ege University Faculty of Science 35100 Bornova, İzmir-TURKEY

**Abstract:** The erythrocyte sizes of some anurans from Turkey (*Rana ridibunda*, *Bufo bufo*, *Bufo viridis*, *Pelobates syriacus*, *Bombina bombina*, *Hyla arborea*) were established utilizing blood smears stained with Wright's stain. The largest erythrocytes were found in *R. ridibunda*, the widest in *B. bombina* and the smallest in *P. syriacus*.

**Key Words:** Anura, Blood smears, Erythrocyte size.
