Verdanus artvinensis (Hemiptera: Cicadellidae), a new leafhopper species from northeastern Turkey

Şaban GÜÇLÜ

Atatürk University, Faculty of Agriculture, Department of Plant Protection, 25240 Erzurum - TURKEY

Abstract: *Verdanus artvinensis* n. sp. from northeastern Turkey is described and illustrated. The main characteristics of this species are compared with those of *V. pazoukii* (Dlabola, 1980), a closely related species. A key to distinguish these 2 species is provided.
