Abstract: Two newly recorded *Helophorus* Fabricius, 1775 species/subspecies for the Turkish fauna, *Helophorus* (*Atracthelophorus*) *shatrovskyi* Angus, 1985 and *H. (A.) leontis dixonii* Angus, 1987, are compared against Turkish specimens (private collection). A list of subgenus *Atracthelophorus* species known from Turkey and their distribution in Turkey and worldwide is presented. The ecology of each examined species is discussed.

Key Words: Coleoptera, Helophoridae, *Helophorus*, Distribution, Turkey
