**Abstract:** Tycherobius polonicus Bolland, 1986 and Neophyllobius podocarpi Bolland, 1991, originally described in Poland and the USA, respectively, are recorded for the first time in Turkey. Their morphological characters and distributions are given. In addition, a key is given to the known genera of Camerobiidae from Turkey

**Key Words:** Acari, Actinedida, Camerobiidae, Tycherobius, Neophyllobius, new record, Turkey
