**Abstract:** A check list of Hydrophilidae species known in Turkey is presented for the first time. In addition, their distributions in Turkey are given. Fifty-four species are determined. Of these, *Hydrophilus atterimus* Eschscholtz, 1822, a new record for the Turkish fauna, is reviewed and compared with *H. piceus* (Linnaeus, 1758).

**Key Words:** Coleoptera, Hydrophilidae, Systematics, New record, Turkey.
