**Abstract:** *Urfacus bozovaensis* gen. et sp. nov. of the Entodontinae (Hymenoptera, Eulophidae) are described. The specimens were swept from a wheat field together with many specimens of *Haplothrips tritici* Kurdj. (Thysanoptera, Phleothripidae) in Bozova, Şanlıurfa, Turkey. The diagnostic characters of the taxa are illustrated and the taxonomic position of the genus and species is discussed.

**Key Words:** New genus, new species, Entedontinae, Eulophidae, Hymenoptera, Turkey
