A Taxonomical Study on The Rotifera Fauna of Abant Lake (Bolu)

Ahmet ALTINDAĞ

Department of Biology, Faculty of Science, University of Ankara-TURKEY

Abstract: The rotifera fauna of Abant lake was studied taxonomically from January to November 1997. A total of 22 rotifer species were identified. Of these, 18 are new for Abant lake and 4 are new for Turkey.

Key Words: Rotifera, Abant Lake, Taxonomy, Fauna
