Plant-  
pollinator  
mutualistic  
networks  
are  
asymmetric  
in their  
interactions:  
specialist  
plants  
are  
pollinated  
by  
generalist  
animals,  
while  
generalist  
plants  
are  
pollinated  
by a  
broad  
involving
