LNM关于地震模拟的合作研究(ACES)双边学术研讨会

---

10月8日, 下午 2:30-5:00

报告人: Professor Peter Mora

Director of Univ. Queensland and the Director of ACES (APEC Cooperation of Earthquake Simulation)

报告题目: Simulation of the Physics of Earthquakes, the ACcESS (Australia Computational Earth System Simulation) simulator facility and the iSERVO (International Solid Earth Research Observatory Institute)

报告人: Dr. D. Weatherly

报告题目: to be determined.

报告人: Dr. Y.C. Wang

报告题目: Statistical test of the Load-Unload Response Ratio (LURR) signals using the Lattice Solid Model (LSM)

报告人: Dr. C. Yin

报告题目: Reorientation of stress field as a possible mechanism for LURR phenomenon

---

10月9日, 上午9:00-12:00

报告人: 汪海英博士

报告题目: Statistical micro-damage mechanics

报告人: 许向红(博士生)

报告题目: Dynamical complexity in rock rupture experiments

报告人: 张晖辉(博士生)

报告题目: The correlation between AE events (Seismic events) and loading

报告人: 余怀中(博士生)

报告题目: State Vector --as a precursor of the macro-fracture and large earthquake

---

地点: 力学所大楼LNM 344学术报告厅

All are welcome.
