

Non-Linear Seismic Analysis Method of Concrete Frame Structure

Author(s): V. Filip • Felix Schärf

Tomme: LI (LV) | **Fascicle:** 3-4 | 2005

Pages: 39-48

Abstract text:

The proposed computation method principle utilized in the studied problem, which consist in solving the dynamic equilibrium differential equation system, written in the incremental form, using a hysteretic model of computing in analytical form, is presented.
