Micro-economic analysis of households restructuring in the pre-accession period to the EU

Agric. Econ. – Czech, 48 (2002): 49-54

Transformation process and restructuring of the existing enterprises started in the Slovak Republic in 1990, what influenced all companies alike as well as rural households. Business companies and

private farms were established. Private activity in agricultural sector became a dominant source of income for many rural households. In 2000, there were 21
