**Natural, production
and economic
conditions individual
farms and enterprises
of restructuring in the
Slovak Republic**

Agric. Econ. – Czech, 48 (2002): 211-
214

In the framework of Slovakia preparation
for entering the European Union, there

1999– 2000. The name of this survey was “ Micro-economic analysis of farming households restructuring in pre-accession period to the EU” . This survey was done in two regions of Slovakia, characterized by different natural conditions, production and economic conditions. This project was aiming not only at private farmers but also at other legal entities producing agricultural products. The first monitored group consisted of 412 private farmers, farming in average 43.2 ha of agricultural land. The second group consisted of 150 businesses, having 1,866 ha of agricultural land in average.

Keywords:

restructuring, individual farm, enterprises, natural conditions, production conditions, economic conditions
