## Sustainable development c landscape and – the criterior multi-functiona

Agric. Econ. – Czech, 49  
238

Description of village and  
sustainable development:  
the landscape, types of the  
utilisation, protection of na  
way of living. As to the sus  
development of country re

consider these priorities: the development of villages, the preservation of the countryside, the development and improvement of infrastructure of tourism and crafts, services, economy and finance. The development of multifunctional agriculture should be concentrated: in favourable regions and the regions with worse natural conditions (with the necessary agroenvironmental conditions).
