ISPRS is a member of the International Council for Science (ICSU)

Internationale Gesellschaft für Photogrammetrie und Fernerkundung Société Internationale de Photogrammétrie et de Télédétection

Council explores revision of ISPRS Commission structure members and ISPRS community at large are asked for comments

A number of developments and assessments have led to this proposal for the restructuring of the ISPRS commissions ([to be found here](#)).

We are most interested in your opinion about this important development and cordially invite you to take part in this discussion. You may do so by sharing your [comments on the blog](#), or by sending an [e-mail](#) to the Secretary General. The topic will also be discussed during the eight midterm symposia being held during 2014.

Individual membership category approved by Ordinary Members

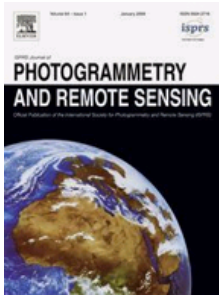

With an overwhelming majority the ISPRS Ordinary Members have voted for the introduction of Individual Membership. Nevertheless, ISPRS will remain a society of societies; the new membership category is primarily being introduced to give individuals in areas without active Ordinary Members the possibility to link to the ISPRS network. Individual membership in ISPRS is free of charge and is governed by [Bylaw VI \(7\)](#) and the new [ISPRS Policy on Individual Membership](#). Anybody interested in ISPRS Individual Membership can submit an application [here](#) or contact his/her national ISPRS Ordinary Member.

Dear International Colleagues,

I am sending you the second call for papers of the 35th Asia Conference on Remote Sensing (ACRS) to be organized from 27 to 31, October 2014 in Nay Pyi Taw, Myanmar. As you may know, ACRS is one of the largest remote sensing conference in Asia. Last year, more than 1300 participants attended ACRS2013 organized in Bali, Indonesia. We welcome your active participation to ACRS2014. [The pamphlet of ACRS2014 is attached herewith.](#)

Kohei Cho
General Secretary
