Welcome to APCCOM2013!!!

The main theme of the four-day conference is on advance materials for new energy applications. Particular emphasis will be put on the following topics:

- Organic light-emitting, photovoltaic devices;
- Dye sensitized & nanostructured solar cells
- Nanostructures for batteries/super capacitors & water-splitting

Deadline for abstract submission: 10 October 2013

***Please send your abstract to Conference Secretariat by
apccom2013@cityu.edu.hk on or before 10 October 2013.***
