Welcome to the 20th European Conference on Fracture

Fracture at all scales

**30th of June - 4th of July,
Trondheim, Norway**

Nidaros Cathedral on the bank of Nidelven in Trondheim

In the first week of July 2014, Norway is hosting the Twentieth European Conference on Fracture (ECF20, www.ecf20.no), which belongs to the well-established series of Biennial International Conferences held under the auspices of the European Structural Integrity Society (ESIS). **ECF20** will

focus on all aspects and scales of fracture and fatigue of engineering materials, components and structures. This ranges from basics to future trends, with special emphasis on multiscale approaches, and applications to energy materials and challenging environments.

ECF20 will feature short courses on [fracture modeling and assessment](#) two days before the conference and a panel discussion about how to teach fracture mechanics in the future.

[Abstract Submission is now open](#)

[ECF20 2nd announcement](#)

Important Dates	
Conference registration from	September 01, 2013
Abstract submission deadline	October 04, 2013
Extended abstract	October 21,
