### Dear colleagues and friends,

The organizing committee and our local organizers wish to extend to you our personal welcome to attend the 2nd International Conference on Intelligent Human-Machine Systems and Cybernetics (IHMSC'10) which will be held at Nanjing, China in 26-28, August 2010. An exciting and comprehensive program highlighting many state-of-the-art scientific and technological advances is planned. The subjects include computational intelligence, knowledge discovery and data mining, intelligent information systems, web mining, synthesis and analysis of complex objects, non-conventional models of computation, structure of regulatory systems, control theory and systems theory. Interdisciplinary research will be given a special emphasis. Sharing research and experiences and openly discussing problems will be strongly encouraged in all scientific sessions.

The conference was sponsored by Bristol University, Zhejiang University, Japan Advanced Institute of Science and Technology (JAIST) and technical co-sponsored by IEEE Hong Kong Section, Joint Chapter on Robotics & Automation, and Control Systems Society (RACS). The proceedings of IHMSC 2010 will be published by Conference Publishing Service (CPS). IEEE Conference record is [16425](#).

We're certain that you will find the city of Nanjing and the surrounding area to be most pleasant and it will be my distinct pleasure to welcome each of you to the IHMSC in August 2010.
