

Search results for "2007-2008" from a search engine. The top results include scientific papers and reports related to the genus Sarinella, pollution in the Beijing area, and the design of sewage treatment systems. The first result is a paper by Wang et al. (2007) on Sarinella species in Beijing. The second is a report on environmental pollution in Beijing in 2007. The third is a technical paper on sewage treatment system design for a garbage landfill. Below the search results is a table with columns for 'Root Entry', 'Workbook', and 'SummaryInformation'. The table contains several rows of data, including file names like 'Sheet1' and 'Sheet2', and various file paths and metadata. At the bottom, there are some small text elements and a page number '5'.
