CALL FOR PAPERS

Due to the rapid development of information technology, broadband network and multimedia technology has become one of the most attractive focuses in research. Its spreading application goes with the great demands of the economic globalization. Thus the first International Conference on Broadband Network & Multimedia Technology (IC-BNMT 2009) to be held in Beijing, China on Oct. 18-20 2009 arises.

This conference is Co-sponsored by Beijing University of Posts and Telecommunications (BUPT, China) and IEEE Beijing Section. This conference aims to bring together researchers, engineers and practitioners interested in the advances and business applications of the broadband network and multimedia technology and to provide a forum for their deep communication. Papers describing original work are invited in any of the areas listed below.

It is the IEEE policy that accepted papers can be published only when IEEE recognized that at least one author has registered for presentation. So, authors will be requested to register along with the final manuscript. Our Conference Registration fees include a copy of the Conference proceedings, a copy of the Workshop proceedings, and admission to the Conference/Workshop sessions.

Publication:

We cordially invite you to submit a paper. Acceptance will be based on quality, relevance and originality. Papers should be submitted electronically, as PDF or WORD files. Only the full papers received before the deadline will be considered for review. The length of a paper is limited to 5 pages and extra pages will be charged.

Selected best papers will appear in SCI. The paper published in the conference proceedings will be indexed by EI and ISTP.
