2005年国际期刊发表文章一览表

作者:

发布日期: 2010-12-28

查看次数: 513次

序号	论文题目	所有作者	刊物名称	卷、期、页
1	A new process for synthesis gas by co-gasifying coal and natural gas	X.P. Song , Z.C. Guo	Fuel	84: 525-531
2	An nvestigation into electrochemical reduction of TiO2 pellet	M.F. Liu , Z.C. Guo , W.C. Lu	Transaction of the Institute of Mining and Metallurgy	114: C1-C8
3	A novel organically templated hybrid open-framework manganese phosphate-oxalate	R.B. Yu , X.R. Xing , T. Saito , M. Azuma , M. Takano , D. Wang , Y.F. Chen , N. Kumada , N. Kinomura	Solid State Sciences	7 (2): 221-226
4	Characterizing particle clustering behavior by PDPA measurement for dilute gas-solid flow	X.H. Liu , S.Q. Gao , J.H. Li	Chemical Engineering Journal	108: 193-202
5	ChIN-A Unique Chemistry Web Guide	X.X. Li	Chemical Structure Association Trust NEWSLETTER	10: 10
6	Collisional particle-phase pressure in particle-fluidflows at high particle inertoa December	J.W. Wang , W. Ge	Physics of Fluids	17: 128103
7	Dependence of the solid flow rate on gas velocity at choking of different types	G.W. Xu , S.Q. Gao	Powder Technology	150: 185-188
8	Desulfurization of coke by recycling COG during coking process	Z.C. Guo , H.Q. Tang , J.L. Liu	Fuel	84: 893-901
9	Dictionary-Based Voting Text Categorization in a Chemistry-Focused Search Engine	C.Y. Liang , L. Guo , Z.J. Xia , X.X. Li , Z.Y. Yang	Lecture Notes in Computer Science	601-602
10	Electroless copper coating on nickel foils in super-gravity field	Y.P. Gong , Z.C. Guo , W.C. Lu	Materials	59: 667-670
11	Evolution of particle size and strength of hydrargilite from carbonization in seeded sodium aluminate liquors	Z. Wang , S.W. Bi , Y.H. Yang , Z.F. Yuan	Journal of Crystal Growth	274 (1-2): 218-225
12	Experimental Study of Coal Gasification Coupling with Natural Gas Autothermal Re-forming for Synthesis Gas Production	Z.B. Ouyang , Z.C. Guo , D.P. Duan , X.P. Song , X.P. Yu	Industrial and Engineering Chemistry Research	44: 279-284
13	Experimental Study of Coal Topping Process in a Downer Reactor	J.G. Wang , X.S. Lu , J.Z. Yao , W.G. Lin , L.J. Cui	Industrial and Engineering Chemistry Research	44(3): 463-470
14	Experimental study of particle flow in a gas-solid separator with baffles using PDPA	L. Du , J. Z. Yao , W. G. Lin	Chemical Engineering Journal	108(1-2): 59-67
15	Fabrication of b-Ni(OH)2 and NiO hollow spheres by a facile template-free process	Y. Wang , Q. Zhu , H. Zhang	Chem. Commu	5231- 5233
16	Fabrication of Silica Colloidal Crystal Multilayer with Controlled Thicknesses by Vertical Deposition	Q.Y. L , W.M. Gao , Y.F. Chen , P. Dong , Z.H. Wu	Key Engineering Materials	280-283: 1149-1152 Part 1-2
17	Feasibility of manufacturing phosphoric acid by smelting reduction technology	Z.C. Guo , X.P. Song , D.G. Wang , Z.H. Xu	Transaction of the Institute of Mining and Metallurgy	114: C1-C10
18	Ferric ions doped 5A molecular sieves for the oxidation of HCHO with low concentration in the air at moderate temperatures	X.Z. Yang , Y.N. Shen , Z.F. Yuan , H.Y. Zhu	Journal of molecular catalysis	237: 224-231

19	Flow structures in the downer circulating fluidized bed	X.S. Lu , S.G. Li , L. Du , J.Z. Yao , W.G.Lin , H.Z. Li	Chemical Engineering Journal	112(1-3): 23-31
20	From Homogeneous Dispersion to Micelles --- A Molecular Dynamics Simulation on the Compromise of the Hydrophilic and Hydrophobic Effects of Sodium Dodecyl Sulfate in Aqueous Solution	J. Gao , W. Ge , G.H. Hu , J.H. Li	Langmuir	21(11): 5223-5229
21	Gas-solids flow patterns in a novel dual-loop FCC riser	X.H. Wang , S.Q. Gao , Y.H. Xu , J.S. Zhang	Powder Technology	152: 90-99
22	Glutamic Acid-mediated Synthesis of Ultralong Hydroxyapatite Nanoribbons Under Hydrothermal Conditions	H. Zhang , Q. Zhu	Chemistry Letter	34(6): 788-790
23	Hydrothermal synthesis and crystal structure of a novel 2-D polymeric manganese complex with mixed ligands	Y.W. Yao , H.X. Lin , X.D. Sun , H.Z. Kou , Q. Cai , H.D. Li , R.B. Yu , D. Wang	Transition Metal Chemistry	30 (3): 294-298
24	Improvement of the quality of silica colloidal crystals by controlling drying	Q.Y. Li , Y.F. Chen , P. Dong	Materials Letters	59 (27): 3521-3524
25	Improving Subcritical Crack Growth Resistance for Alumina Glass Dental Composite	Q. Zhu , G. de With	Key Eng. Mater.	280-283: 1623-1628
26	Influence of surfactants on properties of gibbsite particles from carbonization of sodium aluminate liquors	Z. Wang , S.W. Bi , Y.H. Yang , Z.F. Yuan	Light Metals	105-109
27	Low temperature processing of dense nanocrystalline scandia-doped zirconia (ScSZ) ceramics	Z. Lei , Q. Zhu	Solid State Ionics	176: 2791-2797
28	Low temperature sintering of 8YSZ electrolyte film for intermediate temperature solid oxide fuel cells	Q. Zhu , B. Fan	Solid State Ionics	176: 889-894
29	Mechanochemical-hydrothermal synthesis and characterization of fluoridated hydroxyapatite	H. Zhang , Q. Zhu , Z.H. Xie	Materials Research Bulletin	40: 1326-1334
30	Microscopical study of carbon/carbon composites obtained by chemical vapour infiltration of 0°/0°/90°/90°carbon fiber performs	T.F. Chen , B. Reznik , D. Gerthsen , W.G. Zhang , K.Hüttinger	Carbon	43: 3088-3098
31	Morphologically Controlled Synthesis of Hydroxyapatite with Partial Substitution of Fluoride	H. Zhang , Q. Zhu , Y. Wang	Chemistry of Materials	17: 5824-5830
32	Multi-Scale Compromise and Multi-Level Correlation in Complex Systems	J. Li , W. Ge , J. Zhang , M. Kwak	Chemical Engineering Research and Design	83(A6) : 574-582
33	Multi-Scale Mass Transfer Model for Gas-Solid Two-Phase Flow	L.N. Wang , N. Yang , J.H. Li	Chemical Engineering Communications	192(10-12): 1636 -1654
34	Near net-shape fabrication of alumina glass composites	Q. Zhu , G. de With , L.J.M.G. Dortmans , F. Feenstra	Journal of the European Ceramic Society	25: 633-638
35	Organically Templated Hybrid Open-Framework Manganese Phosphate-Oxalate	R.B. Yu , X.R. Xing , T. Saito , M. Azuma , M. Takano , D. Wang , Y.F. Chen , N.Kumada ,N.Kinomura	Solid State Science	7: 221-226
36	Parallel implementation of macro-scale pseudo-particle simulation for particle-fluid systems	X.W. Wang , L. Guo , W. Ge , D.X. Tang , J.S. Ma , Z. Y. Yang , J.H. Li	Computers & Chemical Engineering	29: 1543-1553
37	Photocatalytic characterization of silica coated titania nanoparticles with tunable coatings	Q.Y. Li , Y.F. Chen , D.D. Zeng , W.M. Gao , Z.J. Wu	Journal of nanoparticle research	7(2-3): 295-299
38	Preparation of Humidity Control Ceramics from Selectively Leached Kaolin	S.F. Du , Y.F. Chen , Y. Liang	Key Engineering Materials	280-283: 333-336
39	Process Engineering Research in China : A Multiscale, Market-Driven Approach	K. M. Ng , J.H. Li , M. Kwak	AIChE Journal	51 (10): 2620-2627
40	Publicly available chemical services in China	X.X. Li	Chemical Structure Association Trust NEWSLETTER	9:8
41	Simulation of heterogeneous structures and analysis of energy consumption in particle-fluid systems with pseudo-particle modeling,	J.Y. Zhang , W.Ge , J.H. Li	Chemical Engineering Science	60 (11): 3091-3099

42	Single crystal growth of ZrW ₂ O ₈ by hydrothermal route	O.F. Xing , X.R. Xing , R.B. Yu , L. Du , J. Meng , J. Luo , D. Wang , G.R. Liu	Journal of Crystal Growth	283(1-2): 208-214
43	Solvothermal synthesis and characterization of CdS nanowires/PVA composite films	J.X. Yao , G.L. Zhao , D. Wang , G.R. Han	Materials Letters	59(28): 3652-3655
44	Study on utilizing zinc and lead-bearing metallurgical dust as sulfur absorbent during briquette combustion	S.F. Feng , R.F. Zhao , K. Kitagawa , K.L. Wang , Z.C. Guo , Y.S. Xie	Energy	30: 2251-2260
45	Surfactant-assisted preparation of fluoride-substituted hydroxyapatite nanorods	H. Zhang , Q. Zhu	Materials Letters	59: 3054-3058
46	The application of Al(OH) ₃ seed in carbonization of sodium aluminate liquors	Z. Wang , S.W. Bi , Y.H. Yang , Z.F. Yuan	Light Metals	223-227
47	The preparation of nano-crystallized cristobalite under hydrothermal conditions	Y. Zhu , K. Yanagisawa , A. Onda , K. Kajiyoshi	Journal of Materials Science	40: 3829-3831
48	Two-phase structure in a high-density downer	H.Z. Chen , H.Z. Li , M. Kwauk	Power Technology	158: 115-123
49	VOC Adsorption in Circulating Gas Fluidized Bed	W.L. Song , D. Tondeur , L.G. Luo , J.H. Li	Adsorption	11(1): 853-858(6)
