

19-22 OCTOBER, 2018 / CHONGQING, CHINA

IACGE CONFERENCE 2018

GEOTECHNICAL AND SEISMIC RESEARCH AND PRACTICES FOR
SUSTAINABILITY

2018年10月19-22日/ 中国, 重庆

2018年国际华人岩土工程协会岩土与地震工 程国际会议

可持续发展的岩土与地震工程理论及实践

REGISTER NOW | 现在注册 ([HTTPS://EASYCHAIR.ORG/CONFERENCES/?CONF=IACGE2018](https://easychair.org/conferences/?conf=iacge2018))

OVERVIEW | 简介

Registered in the USA, the International Association of Chinese Geotechnical Engineers (IACGE) is an international academic organization formed by the geotechnical professionals (mainly are Chinese) all over the world. IACGE officially represents China Association of Rock Mechanics and Engineering (CSRME) in North America. The theme of the IACGE2018 is "Geotechnical and Seismic Research and Practices for Sustainability". IACGE2018 will accept abstracts of academic papers, full papers and/or PowerPoint presentations about engineering projects. Peer reviewed papers are planned to be published in ASCE Geotechnical Special Publications, the publication of the USA's Institution of Civil Engineering. Accepted presenters without papers will have their presentations published at the IACGE websites.

国际华人岩土工程师协会是在美国注册的由全球从事岩土工程研究及应用的、以海内外华人为主的国际性学术团体。代表中国岩石力学与工程学会北美分会。此次IACGE岩土与地震工程国际研讨会主题为“可持续性的岩土与地震工程理论及实践”。会议将接收学术论文摘要，或者全文及工程实例PowerPoint报告。会议论文集拟以美国土木工程师协会岩土特别刊物ASCE Geotechnical Special Publication (GSP)]的形式出版。PowerPoint报告将收编到IACGE网站上。

TOPICS | 会议议题

- > 岩石力学及地质工程 | **Rock Mechanics and Geological Engineering**
- > 土动力学及地震工程 | **Soil Dynamics and Earthquake Engineering**
- > 基础工程及桩基测试 | **Foundation Engineering and Pile Testing**
- > 深基坑开挖及临时支护 | **Excavation and Temporary Support**
- > 路堤及支挡结构 | **Embankments and Retaining Structures**
- > 隧洞及地下建筑 | **Tunnels and Underground Engineering**
- > 水坝及堤坝 | **Dams and Levees**
- > 边坡稳定及滑坡 | **Slope Stability and Landslides**
- > 膨胀土及黄土 | **Expansive Soils and Loess**

- > 地基处理及加固 | **Ground Improvements**
- > 岩土数值分析与计算 | **Geotechnical Numerical Analysis and Calculation**
- > 施工岩土保障技术 | **Geotechnical Support during Construction**
- > 海上风电桩基础 | **SI, design and construction of Pile foundations for offshore wind power**
