论文题目	作者	期刊名称	发表时间
AIRS与COSMIC反演大气温湿廓线比较	官莉	光学学报	2008-12
A Simulation Study of Aerosol Optical Depth over China in 2006 and Its Validation with Observations	银燕	Proceeding of SPIE Conference on "Optics and Applications"	2008-12
Spatial and Temporal Characteristics of Cloud to Ground Lightning in Guizhou Province	李艳伟	the 5th International Conference on Fuzzy Systems and Knowledge Discovery (FSKD)	2008-10
Variation characteristics of aerosol optical depth at 14 meteorological observatories over China during 1961-2005	许潇锋	the 5th International Conference on Fuzzy Systems and Knowledge Discovery (FSKD)	2008-10
Microphysical properties of tropical anvil cirrus observed during ACTIVE: A statistical analysis	金莲姬	Proceeding of SPIE Conference on "Optics and Applications"	2008-08
Measurements of the absorption and scattering coefficients of aerosol particles in suburb of Nanjing (China)	银燕	Proceeding of SPIE Conference on "Optics and Applications"	2008-08
Estimating winter wheat biomass based on LANDSAT TM and MODIS data	鲍艳松	Proceeding of SPIE Conference on "Optics and Applications"	2008-08
Side-Face Effect of a Dielectric Strip on Its Optical Properties	王振会	IEEE TRANSACTIONS ON GEOSCIENCE AND REMOTE SENSING	2008-08
A snow-ratio equation and its application to numerical snowfall prediction	杨军	Weather and Forecasting	2008-08
Successive Observation and Analysis of TSP Concentration in a Sand Dust Storm Case	牛生杰	Proceeding of 2nd International Conference on Bioinformatics and Biomedical Engineering (iCBBE)	2008-08
