论文题目	作者	期刊名称	发表时间
Side-Face Effect of a Dielectric Strip on Its Optical Properties	王振会	IEEE TRANSACTIONS ON GEOSCIENCE AND REMOTE SENSING	2008-08
A snow-ratio equation and its application to numerical snowfall prediction	杨军	Weather and Forecasting	2008-08
Z-R Relationship from the Partical Size and Velocity(Parsivel)Optical Distrometer and its Application in Estimating Areal Rainfall	牛生杰	Proceeding of 2nd International Conference on Bioinformatics and Biomedical Engineering (iCBBE)	2008-08
Estimating biophysical and biochemical parameters and yield of winter wheat based on Landsat TM images	鲍艳松	IEEE Geoscience and Remote Sensing Symposium	2008-07
南京地区不同季节水泥下垫面辐射特征的对比分析	王成刚	太阳能学报	2008-07
城市屋顶储热特征的观测与分析	王成刚	太阳能学报	2008-06
Application of real-time FC based on geometrical meaning of Mamdani reasoning in air-cushioned headbox control system	严家德	第七届全球智能控制与自动化大会	2008-06
Objective Determination of AIRS Cloud Mask Using Co-located MODIS Cloud Mask Information	官莉	Proceeding of SPIE Conference on "Optics and Applications"	2008-05
A Numerical Study on Atmospheric Transport and Diffusion Response to Rapid Urbanization	王咏薇	Proceeding of 2nd International Conference on Bioinformatics and Biomedical Engineering (iCBBE)	2008-05
Differential optical absorption spectroscopy system for suburb of NanJing atmospheric pollution monitoring	王静	Proceeding of 2nd International Conference on Bioinformatics and Biomedical Engineering (iCBBE)	2008-05
