论文题目	作者	期刊名称	发表时间
A Numerical Study on Atmospheric Transport and Diffusion Response to Rapid Urbanization	王咏薇	Proceeding of 2nd International Conference on Bioinformatics and Biomedical Engineering (iCBBE)	2008-05
Differential optical absorption spectroscopy system for suburb of NanJing atmospheric pollution monitoring	王静	Proceeding of 2nd International Conference on Bioinformatics and Biomedical Engineering (iCBBE)	2008-05
Increased winter precipitation over the North Pacific from 1984?1994 to 1995?2005 inferred from the Global Precipitation Climatology Project	刁一伟	Geophysical Research Letters	2008-01
The impact of aerosols on non-precipitating marine stratocumulus I	银燕	Q. J. R. Meteorol. Soc	2008-01
Aerosols influence on the interplay between condensation, evaporation and rain in warm cumulus cloud	银燕	Atmos. Chem. Phys	2008-01
The effects of heating by transported dust layers on cloud and precipitation: a numerical study	银燕	Atmos. Chem. Phys	2007-07
大气红外探测仪的探测系列定位误差	官莉	红外与毫米波学报	2007-01
Modeling CO2 source-sink and flux over broadleaved Koreanpine forest in Changbai Mountain using inverse Lagrangian dispersion analysis	刁一伟	JOURNAL OF GEOPHYSICAL RESEARCH	2006-01
Measurement of tropospheric O3, SO2 and aerosol from a volcanic emission event using new multi-wavelength differential-absorption lidar techniques	曹念文	Applied Physics B	2006-01
基于直角棱镜的气体传感器在能见度测量中的应用	肖韶荣	中国激光	2006-01
