P9 Press Conference for the 2nd China International Forum on Work Safety Held in Beijing

The organizing committee of the 2nd China Forum on International Work Safety & China International Work Safety and Occupational Health Exhibition with the theme of safety, health and development announced at the press conference held in Beijing on August 19 that the forum would be held during September 1-4 with the participation of government officials, social organizations, scientific research institutes and enterprises from over 20 countries and regions.

P10 The National Work Safety Commission under the State Council Held the 4th Liaison Conference

On July 26, the 4th liaison conference of the National Work Safety Commission under the State Council was held at the State Administration of Work Safety (SAWS). Mr. Wang Dexue, deputy director of the SAWS presented the report on work safety situation in the first half of the year and put forward the main tasks in the near future.

P10 The Major Accidents Should Be Reported Within 6 Hours

Recently, SAWS demanded that major accidents should be reported to SAWS level-by-level within 6 hours. The scope of accidents to be reported on an urgent basis includes: casualty accidents of industrial, mining, commercial and trading enterprises, fire, traffic accidents, water transport, railway and aviation accidents, farm machinery and fishing boat casualty accidents as well as other accidents with serious social impact.

P10 A "Talk Session" System to Be Established for Serious Accidents Management in China's Construction Industry

A "Talk session" system will be established for serious accidents management in the construction industry in China. In any province or city, in case of an extremely serious construction accident with a death toll of over 10, the leaders of the Ministry of Construction will have a talk session with the person from the local government in charge of construction.

P11 Innovation for Fly Ash Comprehensive Utilization of Xinglongzhuang Coal Mine under Yanzhou Mining Group

Recently, a project of Xinglongzhuang Coal Mine under Yanzhou Mining Group, Shandong passed acceptance check. This is an under-shaft fire-protection grouting project which uses fly ash to replace earth. The project can be used not only for fire protection but also for transformation of galleries after adding cement and other solidifying materials. It has such advantages as solidity, stability, time and work saving and low cost etc.

P12 Work Safety Conference for Enterprises Directly under Central Government Held in Yangzhou

Between August 5-6, the State Administration of Work Safety and the State-owned Assets Supervision and Administration

Commission under the State Council held a Work Safety Conference for Enterprise Directly under the Central Government (EDCG) in Yangzhou City. The targets of the conference are as follows: define the work safety responsibility of national-level enterprises, arrange work safety tasks of EDCGs, clearly define the tasks and responsibilities of various levels of safety supervision and administration department for safety supervision of EDCGs, and the tasks and responsibilities to be assumed by the State-owned Assets Supervision and Administration Commission under the State Council for the work safety of EDCGs.

Cover Figure

Jiang Tao, a historical witness of labor protection in China. Born in Indonesia in 1916, he returned to China in 1934, joined the army in 1938, started engaging in labor protection in 1948, published the Book of Several Issues Related to Labor Protection in 1953 and appointed as the director of labor protection department of All-China Federation of Trade Unions in 1956. In 1959, due to groundless accusation, he was sent into exile in Hunan Province for 21 years. After his rehabilitation and resumption of his original post in 1979, he actively participated in investigation on Bohai No. 2 Vessel accident. He retired in 1986 and published Discussion on Several Issues Related to Labor Protection in 1993.
