文化 漫画(王日顺、唐少仪、马瑞洁、叶容、董葆发、夏瑞中、潘文华、王建新) P78

各地女子的风韵(张燕) P80

活着才是美丽的理由(李苹) P80

女人要善待自己(张燕) P81

笑话P82

#### 英文目录:

P14 General State Contingency Plan Adopted

The General State Contingency Plan (GSCP) was recently adopted in principle at a State Council executive meeting. Meanwhile, most provincial contingency plans were basically completed and the national framework of contingency plans was initially established. The GSCP represents the general national program stipulating the working principles, organizational system and operational mechanism of the State Council in tackling contingencies in public affairs.

P14 Provisional Methods Introduced for Management of Construction Project Quality Guarantee Funds Promulgated

The Ministry of Construction and the Ministry of Finance recently jointly rolled out the Provisional Methods for Management of Construction Project Quality Guarantee Funds. Such funds refer to the funds retained from the payable project funds set in the agreement between the employer and the contractor in the construction project contract agreement to be used for maintenance and repair in case of deficiencies in the said project to guarantee the contractor's liability period. Construction projects that use government investment in part or in whole should retain about five percent of the total project price settlement account as guarantee funds, according to a Ministry of Construction official.

P14 State Administration of Environment Protection Reports Illegally Initiated Projects

At the beginning of the New Year, the State Administration of Environment Protection issued a "blacklist" of thirty large projects that failed in environmental impact assessment, showing them a yellow card of warning. Most of these projects were

electric power projects, above all, three large electric power stations of the Three Gorges General Corporation. Presently, twenty-two of the 30 illegally initiated projects stopped construction according to regulations.

#### P14 Migrant Workers to be Entitled to Free Employment Service

After the Spring Festival of 2005, public job recommendation organs in large and medium-sized cities will incorporate rural laborers into public service, according to Ministry of Labor and Social Security officials. Farmer-turned workers will be provided with employment service free of charge. Free services include holding recruitment talks, providing appropriate jobs, employment policy consultation and urban-job training for first timer rural labor hands.

#### P15 Beijing to List Work Safety in Government Control Targets

Recently Beijing Municipal Development and Reform Commission disclosed that Beijing will make a major readjustment of the index system of its 2005 national economic and social development plan and that forecast indexes will be separated from the regulatory examination targets: Indexes under market orientation including GDP, total fixed asset investment, total imports and exports, and retails of consumer goods will all be changed from the current government control to forecast indexes. Eleven indexes that are closely related to people's livelihood are added to the list of indexes under government control, including three social insurances, food safety random monitoring quality rate, drug random check quality rate, and energy consumption rate, per 10000 yuan regional GDP, production safety, traffic accidents, and fire death rates. This implies greater government concerns for economic stability, quality growth and people's livelihood.

#### Front cover: China Institute of Work Safety established

China Institute of Work Safety was set up in Beijing on January 18, 2005 with Mr. Liu Tiemin as president in the first term of office. The institute has three main functions: scientific research, technical service to the State Administration of Work Safety (SAWS) and dissemination of work safety technical research results among enterprises. Predecessor of the institute is SAWS Center of S&T Studies (Accident Investigation and Analysis Center). Front cover picture shows the main leaders of SAWS seated at the inauguration ceremony of the institute.
