## 中文目录

P12 Li Tiejing: Not Executing Law is a Offence; Not Complying the law is a Crime  
From May 16 to 21, Mr. Li Tiejing, vice-chairman of China's National People's Congress Standing Committee, led an inspection group of the Safety Working Law to Liaoning Province. He emphasized that production must be safe and safety must be the base of production. The Safety law executers are guardians of safety in production. Not executing the law is a offence, and not complying the law is a crime.

P13 Workers and Farmers' Rights and Interests Ensured in Yongchuan Mine  
Yongchuan Mine of Chongqing Coal Group adopts the farmer-turned miners to affiliate the union admission, and take it as the foremost measure to guarantee their rights and interests. The farmer-turned miners were organized to learn the Labor Law, the Trade Union Law and the Law on Work Safety, thus strengthening their legal concept. Now all farmer-turned miners have signed regular labor contracts. Every month, production quota fulfillment, labor protection articles issuance and wage distribution are made public to the team and squad. Files are set up for the poverty miners to help them on a one-to-one

basis. Apartment buildings have also been built up for them as dormitories.

#### P13 Guangzhou Farmer-turned Workers Can Get the Industrial Injury Insurance Before Work

Many farmer-turned workers in Guangzhou really wanted to join the industrial injury insurance, but because of three-simultaneously-insurances stipulation, some of them didn't want to join all of them. Therefore, many of the bosses used this as a pretext to refuse to make any insurance for them. When the industrial accidents taken out in many mobile and dangerous system, such as architecture, the workers' rights and interests suffer losses. Recently, Guangzhou Labor Security Bureau stipulated according to the instructions of the upper labor insurance department that in the case that a farmer-turned worker suffers from injury or vocational disease as an employer who has not joined industrial injury insurance in the locality of registration and production and management, then the producer and manager unit shall conduct the industrial injury and labor capacity identification and the employer shall pay the industrial insurance treatment fees according to law in accordance with the stipulations in the producer and manager locality. This is tantamount to the city imposing a rigid stipulation on the employer to buy injury insurance in advance for the farmer-workers.

#### P13 Inner Mongolia Close Down 117 Coalmines

The Inner Mongolian Autonomous Region close down 117 coalmines this year so as to readjust the coal industry structure and upgrade the coal production safety levels. Within the next three years, the autonomous region is to close down 312 coalmines with an annual capacity of some 100,000 tons. Of this total, 117 are first to be shut down later this year.

#### P14 First Public Safety Museum Opens in Beijing

Haidian Public Safety Museum, the first of its kind, was formally opened to the public on June 16. Located in Beijing's Haidian Park, the museum built by the Beijing Haidian district government covers 8000 square meters in floor space. Aiming to carry out public safety education through high tech and multi-interactive technologies, it is divided into eight exhibition areas: transport, security, fire fighting, earthquakes, water disasters, safety in production, anti-air raid shelters, and medical care. Adopting advanced exhibition means, it facilitates visitor touches on the imitated disastrous scenarios and teaches the spectators how to cope with emergencies.

#### P15 2005 China Liability Solitude Promotion Meeting Held in Beijing

From June 14 -16 the 2005, China Liability Solitude Promotion Meeting was held in Beijing. The meeting aimed to share the best experience of the whole globe. Cheng Siwei, vice-chairman of the NPC Standing Committee, and Li Yongwu, chairman of China Petroleum and Chemical Industry Association, and Guo Anming, chairman of Association of International Chemicals Manufacturers (AICM) were among the participants. They all made keynote speeches. More than 300 representatives attended the meeting, including representatives from domestic oil, chemical and petrochemical enterprises, and from foreign corporations like Basf Co, Rohmhaas Co, and Exxon Mobile Oil Co.

#### Front Cover: National Work Safety Month

The theme of national work safety month in 2005 was: Abide Rules and Regulations and Cherish Your Lives. Focusing on this theme, the whole country has carried out many activities during June. Activities like bringing safety culture to the grassroots levels, forums on safety, responsibilities, culture and dissemination, and the work safety crusade have been successively held.
