P10 The Centennial Anniversary of the Birth of Airplane By Ji Yongxing
After a hundred years' history of human aviation ---- a highly risky industry ---- civil airliner has finally become the safest and most convenient means of transportation and communications in the world. Three major measures including technical progress, scientific management and personnel training have made a remarkable progress in promoting aviation safety. In fighting against aircraft accidents, the international aviation circle has formed a complete set of standards and its basic principles have been accepted by the aviation circle of the various countries in the world.

P22 Vice Premier Huang Ju Delivered a Speech at the First Plenary Session of Work Safety Commission of the State Council
Huang Ju, Member of the Standing Committee of the Political Bureau of the CPC Central Committee, Vice Premier of the State Council and Director of Work Safety Commission of the State Council, emphasized at the meeting held on 13th that work safety is related to the macro-situation of reform, development and social stability and down-to-earth efforts should be made in this regard to promote the stability and improvement of work safety situation throughout the country.

P22 The National Seminar on Work Safety Administration's Directors Held in Beijing

According to the reporters from the seminar, the main functions, internal organizations and staffing of the State Administration of Work Safety (State Administration of Coal Mine Safety) will be adjusted. This adjustment will strengthen the authority of the State Administration of Work Safety which serves as an organization directly under the State Council and the Office of Work Safety Commission of the State Council.

The information notification meeting on The 2nd China International Forum on Work Safety and China International Work Safety and Occupational Health Exhibition was held in the Kerry Center Hotel, Beijing on November 7. Huang Yi, press spokesman of the State Administration of Work Safety introduced the background of this activity. Zhu Changyou, project officer of ILO Beijing Office and Feng Peixi, general manager of Messe Düsseldorf China Ltd made speeches at the meeting. The 2nd China International Forum on Work Safety and China International Work Safety and Occupational Health Exhibition co-sponsored by the State Administration of Work Safety and ILO will be held in Beijing during September 1-4, 2004. The theme of this activity is Safety, Health and Development.

P38 The Small and Medium-sized Enterprises Plan on Occupational Safety and Health By Li Chuangui

According to incomplete statistics, there are more than 10 million registered small and medium-sized enterprises in the whole country, accounting for over 90% of the total number of registered enterprises. The small and medium-sized enterprises are a significant source to social investment and fiscal revenue and also an important channel to increase employment. However, they are currently facing serious occupational safety and health problems. This article suggested working out occupational safety and health plan for the small and medium-sized enterprises and put forward the main procedures for the formulation of such plan.

Cover Figure

Ji Yongxing, male, was born in Shanxi Province in November 1945. He graduated from Air Force Engineering College and is currently holding the post of senior engineer of the No. 1 Air Force Research Institute. He has over 30 years working experience in the field of aviation safety and has published Checking Methods of Flight Accidents. He participated in the research and development of "on-site live wireless frequency expansion transmission device of digital images," which has been used in landing rescue after the reentrance of the
