| 安全短笛（二首）（韩长绵）                      | P64 |     |

## 英文目录：

P8 Date of the First Qualification Test for Certified Safety Engineer Fixed Zheng Zhi

The first qualification test for certified safety engineer will be held on September 11 and 12, 2004. The professional qualification of certified safety engineer is a creative effort for the benefit of safety production in China. The State Work Safety Administration will be responsible for drafting test subjects and working out the test questions. To protect the interests of the participants of the test, the State Work Safety Administration stipulated that no unit or individual should organize training for test in the name of the State Work Safety Administration (or under its unified planning).

P8 Occupational Safety and Health Research Institute Established Chang Gong

On May, 26, the Occupational Safety and Health Research Institute was established in Beijing. The Institute will undertake such important tasks as promotion of policies, guidelines, regulations and laws related to occupational health and occupational disease prevention, and provide technical consultation and support for governmental occupational hazards supervision departments.

P10 2004 China's Work Safety Month Staff Reporter

June of 2004 is the National Work Safety Month. On the morning of June 13, the 2004 National Work Safety Month Promotion and Consulancy Day Activity and the inauguration ceremony of the Safety work Campaign were held in the square of Chaoyang Park in Beijing. These activities were jointly sponsored by the CPC Central Committee Propaganda Department, the State Work Safety Administration, State Administration of Radio, Film and Television, All china-Federation of Industry and Commerce, Communist Youth League of China and Beijing Municipal People's Government. Officials from the sponsoring units attended the ceremony. This year the press team of Safety Work Campaign will go to China's three northeastern provinces to conduct interviews and propaganda activities.

## P12 Collection of Signatures from One Million People in One Hundred Cities Staff Reporter

On the morning of June 11, 2004, the press conference of "People Foremost and Safety First" -- the collection of signatures from one million people in one hundred cities throughout the country -- sponsored by the office of the steering committee of National Work Safety Month Campaign was held at Diaoyutai State Guesthouse in Beijing. Hao Jianxiu, Vice Chairperson of CPPCC and Zhao Tiechui, Deputy Director of State Work Safety Administration etc. attended the press conference. After the press conference, Vice Chairperson Hao Jianxiu signed her name, together with other participants, on the banner inscribed with "People Foremost and Safety First".

### P24 Cover figure Qiu Cheng

Sui Pengcheng, male, born in 1930, is a famous safety educationist, founder of the new science of safety and pioneer in safety soft science. In his early years, he was determined to eliminate industrial calamities and work for safety and health of workers all his life. During decades of scientific research and education, especially in safety engineering continuous education, he has trained for over 30000 full-time safety cadres from 12 industrial departments in 30 provinces (regions, municipalities). In addition, he established such modern safety management system as Systematic Safety Analysis, Risk Analysis and Safety Decision etc. for over a dozen factories and mines. After retirement, he developed examination and approval procedures of Pre-evaluation on Labor Safety and Sanitation for over a dozen oil fields and oil refineries.

### P28 Mr. Wang Xianzheng Delivered a Speech at the Forum on Liability Insurance Development in China Chen Guang

On June 5, 2004, the Forum on Liability Insurance Development in China jointly sponsored by the State Work Safety Administration and China Insurance Regulatory Commission was held in Beijing. Mr. Wang Xianzheng, Director-General of the State Work Safety Administration pointed out in his speech that commercial operation mechanism should be introduced in the field of work safety and industrial injury insurance as soon as possible. While adhering to and improving social insurance system for industrial injuries, the employer's liability insurance, personnel accident injury insurance and other commercial insurances should be actively developed so that they could complement each other to serve and promote safety production in China.
