2005年第2期英文目录:

P10 National Conference on Work Safety Held in Beijing

National Conference on Work Safety was held in Beijing on Jan. 18. At this conference, the participants were briefed about the Central Government Conference on Economy, the third meeting of the State Council Work Safety Committee and the State Council Teleconference on National Work Safety. National efforts to strengthen work safety in 2004 were summarized and the plans for 2005 were made.

P11 National Institute of Safety Science and Technology Renamed

National Institute of Safety Sciences and Technology, SAWS is renamed into China Academy of Sciences and Technology authorized by Central Committee of Personnel Force. The Academy is under the leadership of State Administration of Work

P12 Demand for Security Equipments Market in China

The demand for security equipments in China will be ¥50-100 billion yearly. This news is from " International Symposium on Security Equipments Market, Shanghai, China — Promotion for EPPE100 Security Harbor" , held in Zhangjiang Semiconductor Industry Park from Jan. 11-12. Security equipment is an emerging industry, which is undergoing an explosive growth. In this context, EPPE100 Security Harbor is launched, which will fundamentally change the market scenario.

P16 State Council Teleconference on National Work Safety

Mr. Huang Ju Attended the Conference and Made Important Speech

On Jan. 17, the State Council held a teleconference on national work safety. Mr. Huang Ju, member of the Standing Committee of the Political Bureau and Vice Premier, made an important speech at the conference. He said, " We must have a comprehensive perspective based on a scientific development pattern and achieve the goal of work safety set by the State Council in an integrated way. We should have an accountability system in place. We will continue to improve the institution and strengthen management to ensure national work safety." He said, " Local government , industries and companies must understand the importance of work safety. Precautionary measures must be in place."

P16 ICORD will be held in Beijing in April

With the approval of the State Council, the Tenth International Conference on Occupational Respiratory Diseases (ICORD), co-organized by the Ministry of Health and ILO, will be held in Beijing from April 19-22, 2005. More than 1000 professionals from over 40 countries and regions will attend the meeting. Since the promulgation of the Law on the Prevention and Cure of Occupational Diseases, this conference has been the highest academic meeting of its kind. The Tenth ICORD will provide a platform where China' s occupational health regulators and professional can share their experience with their international counterparts.

P16 Injury Due to Fireworks Registered on the Internet in Beijing

Starting from 2005, statistics on fireworks-related injury in Beijing will be on the Internet. According to the Beijing Health Bureau, since fireworks were prohibited in Beijing, the Bureau has been responsible of monitoring, curing and counting fireworks-related injuries during New Year and Spring Festival. From 2005 onwards, the Bureau decides to do their job on the Internet. Hospitals will report the statistics to the district and county health authorities, and then the Beijing Bureau of Health will report the total statistics to the Office of Fireworks Prohibition.

P17 Emergency Response Law is Placed on the Agenda

Prof. Xue Lan, crisis management expert with Tsinghua University Public Administration School said recently that Emergency Response Law has been placed on the legislative agenda of the Tenth National People' s Congress Standing Committee. Since the breakout of SARS, China has began the discussions on emergency response legislation. Much progress has been made in crisis management, and the emergency response system development has entered a new phase.

P17 System of Mine Accidents Notice will be Set Up

On Jan. 4, the State Administration of Work Safety told the press that a public notice will be in place and a press conference will be held when a mine accident happens. Mr. Wang Xianzheng, Director General of the State Administration of Work Safety said that unqualified coal mines will be exposed to the public before NPC and CPPCC annual sessions. The press will give full play to its role as supervisors, exposing unsafe factories and projects on the local press before NPC and CPPCC annual sessions. A report and public notice system will be set up. Those unqualified mines will be closed down completely. Citizens and the press can supervise these efforts to help work safety regulators.

P17 107077 killed in the Traffic Accident

According to statistics, 517889 traffic accidents happened in 2004, killing 107077 people. 465083 accidents were caused by the drivers who break the road rules, killing 93550 people, or 87.4% of the total in 2004.
