Res. Agr. Eng.

Mejzr J., Hanousek B.: Drying of hop

Res. Agr. Eng., 53 (2007): 155-160

In the Czech Republic, belt kilns are

predominantly used for hop drying. As in the world other types of hop kilns, such as box kilns, are also frequently used, the comparison appears desirable between the efficiency and quality of the technological processes in the individual kiln types. The present work is aimed at determining the hop drying parameters in
