1st IJS

First Announcement 1st International Jujube Symposium

The First International Jujube Symposium (1st IJS) will be held in Agricultural University of Hebei, Baoding on 21-25 September, 2008. The IJS aims at providing a forum for exchanging information among researchers and academicians as well as related businessman and officials. I sincerely invite you to attend the symposium. Let's try together to make it a great and historic gathering on jujube (*Ziziphus*).

Objective

This symposium is to provide an international forum for exchanging of information on jujube among researchers and academicians as well as related businessman and officials.

Scientific Program-Main Topics

1. General information (Present status, problem, advances, prospect, economy, market and etc.)
2. Germplasm and breeding
3. Molecular biology and biotechnology
4. Biology and physiology
5. Propagation and rootstocks
6. Orchard management and harvest
7. Plant protection
8. Postharvest treatment and processing
9. Nutrition and utilization
10. Science and technology extension

Discussion

1. Taxonomy and nomenclature of jujube (genus and important species)

2. International cooperation on jujube

3. The next symposium on jujube

General Information

You are welcome to contribute papers to be presented orally or as posters at the conference. The format of presentation and the section will be assigned based on author's options and content. The manuscripts will be evaluated and revised by two reviewers, and acceptable papers will be published in a volume of the ISHS series Acta Horticulturae after the conference. Guidelines for abstraction submission and specifications of scientific paper and poster are available on the web

<http://www.ziziphus.net/2008>. Those who intend to attend the conference can register by returning the registration form.
