摘要:

植物源杀虫剂是当前研发化学杀虫剂替代品的热点。本文对植物源杀虫剂的优势与机遇、开发研究现状、主要的作用方式、作用机制等进行了综述, 并展望了其发展前景。

Research Progress of Botanical Insecticides

Abstract:

More and more attention has been paid to the research of botanical insecticides for developing alternatives of chemical pesticides. In this article, the superiority, opportunity, current researching state, mode of action, toxic mechanism of botanical insecticides were reviewed, and the prospective of botanical pesticides were described.

Keywords: rotenone
