Abstract: In this paper, monumental trees and stands in the Black Sea region are described. In this region, 12 monumental trees were identified. Of these, five were *Abies nordmanniana* (Stev.) Spach. subsp. *nordmanniana*, three were *Fagus orientalis* Lipsky., one was *Picea orientalis* (L.) Link., one was *Carpinus betulus* L., one was *Platanus orientalis* L. and one was *Quercus hartwissiana* Stev. In addition, two monumental stands consisting of *Picea orientalis* (L.) and *Fagus arientalis* Lipsky. were identified.

Turk. J. Agric. For., **23**, (1999), 671-678.
