**Veterinarni Medicina**

**Mycobacteria in water, feedstocks and food: analysis of publications**

Kaevska M, Hruska K:

**Veterinarni Medicina, 55 (2010): 571-580**

[ [fulltext](#) ]

Papers on mycobacteria in food, feed and water, published between 1945 and 2010 and indexed in the database Web of Science® (Thomson Reuters) were ranked according to authors, institutions, countries and source titles. The total number of papers on mycobacteria and food and mycobacteria and water were 1486 and 1419, respectively. More than 40% of papers have been published in the last five years. In addition to publications in peer reviewed journals the archives of ProMED-mail and the Rapid Alert System for Food and Feed of the European Union were also searched. It is evident that much attention is being paid to mycobacteria in food, feed and water

## Keywords:

food safety; public health; milk; meat;  
beef; cheese; fish; fruits; vegetables
