Veterinari Medicina

Chondrosarcoma in the mammary gland of a bitch: a case report

Serin G., Aydogan A.:

Veterinari Medicina, 54 (2009): 543-546

[[fulltext](#)]

This report describes the clinical and histopathological findings associated with a mammary chondrosarcoma in a mongrel bitch. The tumour was located in the right caudo-abdominal mammary gland, and was 6 × 8 × 4 cm in size, weighed 200 g and was very firm to the touch. Microscopically, a well differentiated chondrosarcoma, rarely observed in canine mammary gland tumours, was diagnosed.

Keywords:

chondrosarcoma; mammary gland; dog
