摘要 通过有关白蛉调查研究的文献复习以及多年来在工作实践的体会，提出了中国在白蛉的分类、生物学和密度监测等方面需要研究解决的5个问题，期待中国医学昆虫学工作者予以关注。

关键词：白蛉 分类 生物学 监测 传播 分布特征 展望

Abstract: Through literature review of the investigations on relevant sandflies(Dipter : Psychodidae) and his personal practical experience over the years, the author raises 5 issues referring to the taxonomy and biology of sandflies, density surveillance, transimission of Leishmania parasites, and their distribution status which need to be further studied, and the author looks forward to an attention from medical entomologists in China.

Keywords: Sandfly Taxonomy Biology Surveillance Transmission Distribution status Prospect
