2009;47(4) : 85-92

### PREPARATION OF ANTI-HUMAN GLOBULIN SERUM IN IRANIAN RABBITS AND GOAT

T.Zandieh, O. Kia Hashemi

#### Abstract:

Anti-human globulin was produced in Iranian rabbits and goat by using human O serum mixed with Freund's adjuvants (complete or incomplete) for immunizing the animals. A titer of 1.4096 was obtained in rabbit and a titer of 1.2056 was obtained in goat. Quality-and quantity-wise, goat's serum appeared to be better than rabbit's serum.
