INAUGURATION OF THE MASTER COURSE IN MEDICINE AT NAGASAKI UNIVERSITY: A MILITARY TROPICAL MEDICAL EDUCATION IN JAPAN.

Information of the first master course for Tropical Medicine in Japan

[OSAMU NAKAGOMI, MD, PhD^{1\)}](#) and [HIROSHI NAKAOKA \(Liverpool\)^{2\)}](#)

1) Proposed Course Director

2) Proposed Course Coordinator Master Course in Tropical Medicine and Biomedical Sciences, Nagasaki University

Abstract: We now live in a world where the threat of emerging infectious diseases crosses continental and national borders. In recognition of this, the Japanese government realizes the importance of nurturing expertise in the control of infectious diseases based on sound knowledge, experience, and evidence. The introduction of a Tropical Medicine course at the Graduate School of Biomedical Sciences in Nagasaki University, Japan is expected to provide a whole new opportunity for eager do-

necessary knowledge and skills to combat the world-wide burden c
