第五届脑功能基因组学国际学术研讨会通知

Chair, Joe Z. Tsien

Professor and Director Center for Systems Neurobiology, School of Medicine, BU
Director Shanghai Institute of Brain Functional Genomics, ECNU

Speaker:

Richard Andersen (California Institute of Technology, USA)

Planning and decision-making in parieto-frontal circuits

Carol Barnes (University of Arizona, USA)

Neurobiological changes in the aged hippocampus: implications for age-related deficits in spatial cognition

Masakazu Konishi (California Institute of Technology, USA)

Similar algorithms in different sensory systems

Barry Everitt (University of Cambridge, UK)

Reconsolidation of fear and drug memories: molecular mechanisms and therapeutic potential

Joe Z. Tsien (Boston University, USA)

Neural network mechanism of memory
