About the American Optometric Association (AOA)

The American Optometric Association represents approximately 36,000 doctors of optometry, optometry students and paraoptometric assistants and technicians. Optometrists serve patients in nearly 6,500 communities across the country, and in 3,500 of those communities are the only eye doctors. Doctors of optometry provide two-thirds of all primary eye care in the United States.

Find My State / Affiliate

The American Optometric Association is a federation of state, student and armed forces optometric associations and together, advocates for the profession and serves optometrists in meeting the eye care needs of the public.
