## Tongue Size, Oral Cavity Size and Speech

R. G. Oliver;<sup>a</sup> S. P. Evans

<sup>a</sup>R. G. Oliver, Orthodontic Department, Dental School, Heath Park, Cardiff, CF4 4XY, WALES

### ABSTRACT

Methods of measuring tongue size are evaluated, and protruded tongue size is related to sex, malocclusion, and speech. Significant correlations are found with sex and speech.

Richard G. Oliver is Senior Lecturer and Honorary Consultant in the Department of Orthodontics at the University of Wales College of Medicine. He is a Dental graduate (B.D.S.) of the University of London, and holds an M.Sc.D. in Orthodontics from the University of Wales

Sian P. Evans is a dental graduate (B.D.S.) of the University of Wales in Cardiff

**KEY WORDS:** SPEECH, TONGUE.
