Lower Molar Crowding in the Early Permanent Dentition

Margaret E. Richardson^a

^aMargaret E. Richardson, Orthodontic Department, School of Dentistry, Belfast, BT12 6BA, NORTHERN IRELAND

ABSTRACT

Statistical evaluations finding a tendency for early molar crowding to decrease, with forward molar movement and an increase in anterior crowding.

Margaret E. Richardson is Associate Specialist Orthodontist, School of Dentistry, Belfast, Northern Ireland. She holds an M. Dent. Sc., Trinity College, University of Dublin, and Diploma in Orthodontics (D. Orth.) from the Royal College of Surgeons, London

KEY WORDS: CROWDING, GROWTH, MOLAR SPACE.
