Exploitation of the Residual Premaxillary-Maxillary Suture Site in Maxillary Protraction

An Hypothesis

Bruce S. Haskell;^a Allan G. Farman

^aDr. Bruce S. Haskell, Department of Orthodontics, School of Dentistry, Health Sciences Center, University of Louisville, Louisville, KY 40292

ABSTRACT

A discussion of the patency of the maxillary-premaxillary suture and its possible value in orthopedic protraction of the premaxillary segment, illustrated by a case report

Dr. Haskell is Clinical Associate Professor in the Department of Orthodontics at the University of Louisville, Kentucky, and Adjunct Research Associate in Physical Anthropology in the Department of Anthropology at the University of Pittsburgh, Pennsylvania. He is a dental graduate (D.M.D.) of the University of Pittsburgh, and also holds a Certificate in Orthodontics from the Eastman Dental Center in Rochester, N.Y. and a Ph.D. degree in Physical Anthropology from the University of Pittsburgh

Dr. Farman is Professor and Director of Radiology at the University of Louisville, Kentucky. He is a graduate of the University of Birmingham School of Dentistry in England, with B.D.S, L.D.S.R.C.S, Ph.D., (Odont.), M.I. Biol., Ed.S

KEY WORDS: MALOCCLUSION, CLASS III, PREMAXILLA, SUTURE.
