Effect of Lip Training in Children with Short Upper Lip

BENGT INGERVALL;^a GUN-BRITT ELIASSON

^aProf. Dr. Bengt Ingervall, Klinik Für Kieferorthopädie, Universität Bern, CH-3010 Bern, Freiburgstrasse 7, SWITZERLAND

ABSTRACT

A one-year study of the effects of a simple lip exercise on incompetent lips. Upper and lower lip length were increased, and the interlabial gap reduced.

Dr. Ingervall is Professor and Chairman of the Orthodontic Department, University of Bern, Switzerland. He holds a D.D.S. degree from Malmö, Sweden and Odont. dr. from the Karolinska Institutet, Stockholm, where he was also named docent in Orthodontics

Dr. Eliasson is chief dentist in a children's dental clinic of the Public Dental Health Service of Gothenburg, Sweden. She is a dental graduate (D.D.S.) of the Royal Dental School in Malmö
