The Angle Orthodontist: Vol. 8, No. 2, pp. 140–142.

Outline of Orthodontic Case Report^{*}

ABSTRACT

No Abstract Available.

*It is recognized that no single case will offer or require data on all of the points mentioned. The outline is intended to act as a frame work upon which may be hung the information available in a particular instance. Neither is it considered final in either content or arrangement, but is offered to stimulate comment, criticism, and suggestions to the end that a comprehensive outline may be developed in the interest of more serviceable case reports.
