Title: Hyperbaric oxygenation in the treatment of peripneral vascular disease.

Authors: Visona, A
Lusiani, L
Rusca, F
Barbiero, D
Pagan, A

Keywords: Hyperbaric Oxygenation
peripneral vascular disease
Diabetes Mellitus

Issue Date: 1987

Publisher: Undersea and Hyperbaric Medical Society, Inc.

Citation: Visona A, Lusiani L, Rusca F, Barbiero D, Pagan A. Hyperbaric oxygenation in the treatment of peripneral vascular disease. J. Hyperbaric Med 1987; 2(4):223-227.

Abstract: Hyperbaric Oxygen (HBO) therapy has been employed in the treatment of peripneral vascular disease (PVD) at different clinical stages. We observed amelioration of clinical symptoms in more than half the patients and regional hemodynamic improvement in about on third. The data arising from this preliminary experience are favorable HBO seems to represent a useful therapeutic approach in the treatment of PVD.
