Nanotechnology in Drug Delivery

Publication Date: 2008-10-27

Edited by Melgardt M. de Villiers, Pornanong Aramwit, and Glen S. Kwon

The reader is introduced to various aspects of the fundamentals of nanotechnology based drug delivery systems and the application of these systems for the delivery of small molecules, proteins, peptides, oligonucleotides, and genes. How these systems overcome challenges offered by biological barriers to drug absorption and drug targeting are also described.

ISBN: 978-0-387-77667-5

Suggested List Price:
\$126.25 (AAPS member)
\$169.00 (nonmember)
