Bio

Prabhakar's research focuses on the design, analysis, and implementation of data networks: both wireline and wireless. He has been interested in designing network algorithms, problems in ad hoc wireless networks, and designing incentive mechanisms. He has a long-standing interest in stochastic network theory, information theory, algorithms, and probability theory.

Academic Appointments

Professor, Electrical Engineering

Professor, Computer Science

Affiliate, Precourt Institute for Energy

Professional Education

PhD, UCLA (1994)
